EPDM stands for Ethylene Propylene Diene Monomer, which is a type of synthetic rubber commonly used outdoors for roofing, window and door seals. EPDM Membrane creates an airtight and weathertight seal and can be used for a wide variety of applications. The EPDM vent pipe boots are designed to provide maximum Ozone, UV Light, and Temperature resistance. The flexible aluminum base will allow the flashing to conform to any metal roof configuration. Pipe location can be centered in the flat of the panel or the rib.

# Terms and Conditions

Nothing herein contained shall obligate PEPCO SALES OF DALLAS, INC. (the "Seller") to either extend credit or sell any goods ("Goods") to the buyer (the "Buyer"). If and to the extent that the Seller shall sell any Goods to the Buyer, such sales shall be upon the following terms and conditions, unless otherwise agreed to in a writing signed by the parties:

1. Any terms or conditions proposed by the Buyer inconsistent with or in addition to the terms and conditions contained herein shall be void and of no effect unless specifically agreed to by Seller in writing. The Seller's shipment of the Goods shall constitute the formation of a contract for the purchase and sale of the Goods solely upon the terms and conditions set forth herein.

2. All shipments are F.O.B. Seller's warehouse. The Seller may increase or decrease its prices for the Goods if the Buyer changes the quantity of Goods purchased or shipped hereunder. Except as otherwise set forth from time to time in the Seller's price sheets, prices for the Goods are exclusive of any shipping or freight. Where Seller agrees to ship Goods by prepaid freight, Seller will ship via the carrier of its choice. Any special instructions for delivery must be communicated by Buyer to Seller in writing and agreed to by Seller in writing. Additional delivery charges incurred to comply with Buyer's special instructions for delivery will be Buyer's responsibility.

3. The amount of any taxes, tariffs or duties, export charges, license fees, royalties, or any other fees or charges imposed by any state or local authority, the United States, any foreign government, or any other person or entity on the production, sale, or use of the Goods shall be paid by the Buyer, and any such amounts paid by the Seller shall be for the account of the Buyer, and Buyer shall immediately reimburse Seller for such amounts.

4. Except as may otherwise be set forth in Seller's Order Confirmation form issued to Buyer, the terms for Buyer's payment for the Goods are net 30 days and Buyer agrees to remit payment to Seller at the location shown on the Seller's invoice. Seller reserves the right at any time to suspend or revoke any credit extended to Buyer if Buyer fails to pay any invoice when due or for any other reason deemed good and sufficient in the Seller's discretion. In such case, in addition to any other remedies contained herein or provided by law, Seller has the right to demand cash payment or satisfactory security from Buyer prior to shipment of any Goods. Buyer's failure to pay any invoice when due makes all subsequent invoices immediately due and payable irrespective of any terms contained herein or therein, and Seller may withhold all subsequent shipments of Goods until Buyer's account is settled in full. Buyer agrees that the Seller may at its option charge interest on delinquent accounts at the lesser of 1.5% per month or the highest rate allowed by applicable law. Buyer hereby grants Seller a purchase money security interest in all Goods to secure all amounts owing to the Seller by the Buyer hereunder, and authorizes the Seller to file a UCC-1 Financing Statement in the appropriate jurisdiction in order to perfect such security interest.

5. Notwithstanding any law to the contrary, Buyer assumes all risks of and responsibility for loss or damage to, or delay in delivery of, the Goods after their tender by Seller to a common carrier or other shipper designated by Buyer. Notwithstanding Section 2-510(1) of the Uniform Commercial Code, after tender of the Goods to the Buyer, all risk of loss shall remain with Buyer regardless of any breach of warranty or nonconformities in the Goods.

6. Seller reserves the right to ship usable portions of any order in installments. All such installments shall be separately invoiced and shall be paid for in accordance with the terms herein contained. Delay in the shipment of any installment shall not relieve Buyer of its obligation to accept subsequent shipments. Seller shall not be responsible for any delay or failure with respect to any shipment of the Goods if due to or arising from any shortage of materials, fire, labor trouble of any kind, accident, breakdown of machinery, government act of any kind, failure of any manufacturer, subcontractor or supplier to deliver goods, materials, or supplies, or to provide services as agreed or contemplated by past dealings, transportation difficulties of any kind, act of God, pandemic, act of Buyer or any other event beyond Seller's reasonable control, whether or not contemplated by either party. In the event of any such delay, the date of delivery shall be extended for a period equal to the time lost by reason of the delay. Except upon the prior written consent of the Seller, no order can be cancelled by Buyer as a result of any delay contemplated by this paragraph.

7. The Buyer agrees to inspect the Goods immediately upon its receipt thereof, and shall give written notice to the Seller of any claim that the Goods do not conform with the terms hereof within fifteen (15) days after delivery of the Goods to Buyer or the destination designated by Buyer. If Buyer shall fail to give such notice, the Goods shall be deemed to conform with the terms hereof, and Buyer shall be bound to accept and to pay for the Goods, and shall have no right to revoke such acceptance for any reason, provided, however, that Buyer may return goods within 90 days following the date of delivery upon the terms stated in Section 8 below. In the event of a timely claim against Seller, the parties shall promptly arrange to jointly inspect the Goods, and, where appropriate, to have representatives of the carrier present at such inspection. Any damage or loss occurring in transit shall be settled by Buyer with the carrier without any offset of the purchase price of the Goods. Buyer shall set aside, protect and hold those Goods which are the subject of its claim until Seller has an opportunity to inspect them and advise Buyer of the disposition, if any, to be made of them. In no case shall any Goods be returned to Seller without the prior written consent of the Seller.

8.
